Professional Summary

I am a passionate Frontend Developer and UI/UX Designer with over 2 years of hands-on experience developing modern, responsive, and user-focused web applications. Skilled in React, JavaScript, HTML, and Tailwind CSS, I specialize in building fast and accessible interfaces with a strong focus on user experience. I've led and contributed to real-world projects, including JobBridge (a career platform), Veggie (e-commerce), and DisciNet (a blog platform). My design and coding work is driven by empathy, accessibility, and efficiency. I'm seeking a full-time remote opportunity where I can collaborate with innovative teams to solve meaningful problems.

Technical Skills

- **Languages & Frameworks:** JavaScript, TypeScript (beginner), React.js, HTML5, CSS3
 - **Styling & Layout:** Tailwind CSS, Responsive Design, CSS Flex/Grid
 - **Design Tools:** Figma, Wireframing, UI Prototyping, Mobile-first Design
 - **Other Tools:** Git & GitHub, VS Code, EmailJS, Vercel
 - **Soft Skills:** Communication, Team Collaboration, Technical Mentoring, Documentation
-

Projects

JobBridge – UI/UX Designer & Frontend Developer

2024 – 2025

JobBridge is a mobile-first platform providing unemployed Ghanaian youth with skill-building resources, job access, and mentorship.

- Designed wireframes and high-fidelity UI using Figma
- Built responsive layouts with Tailwind CSS and HTML
- Focused on accessibility, digital literacy, and offline usability

Veggie – Frontend Developer

2024

VeggieNine is an e-commerce grocery app with email confirmations integrated via EmailJS.

- Developed frontend using React and Tailwind CSS
- Connected EmailJS to handle confirmation messages post-purchase
- Ensured full responsiveness for mobile and desktop

DisciNet – Blog Platform Developer

2024

A real blog platform built with vanilla JavaScript allowing users to create, search, and comment on posts.

- Coded a full post-creation system with local storage support
- Implemented keyword search and threaded comments
- Used Tailwind for clean, mobile-friendly styling

Sister Efia Classic Boutique Website – Web Developer

2024

A product-focused fashion boutique website with WhatsApp integration for orders.

- Built static frontend using HTML, Tailwind, and JavaScript
- Organized products into clickable categories with filters and search
- Linked directly to WhatsApp and social platforms

Education

BSc. Information Technology

Akenten Appiah-Menka University of Skills Training, Entrepreneurship, and Development (AAMUSTED), Ghana

2023 – Expected Graduation: 2027

Certifications

- Google IT Support Certificate – Coursera, 2024

Experience

Technical Mentor – Volunteer / Part-Time

2024 – Present

Mentored beginner developers in setting up development environments and writing their first C programs using Visual Studio Code.

- Taught practical sessions on basic C programming and debugging
- Helped learners understand installation, compiling, and running workflows

Employment Preferences

- **Position:** Frontend Developer / UI Developer
 - **Categories:** Frontend, React, UI/UX, Web Development
 - **Employment Type:** Remote only, On-Site
